As we stand at the threshold of a new year, it is a good time to update our wardrobes, perk up our style vocabulary, brush up on new ways of doing

# In the world of beauty, the “Curly Girl Movement” will be very popular in 2019. This trend, which began in the African-American community, has made its way across countries and ethnicities and will be very popular this year.

With the right choice of natural products, women can give their hair definition and love their natural hair this year. There are new treatments that will reduce frizz and enable the pattern of your curls to reveal itself.”

Korean skincare products will take top spot in the beauty arena. Bespoke skincare, where products are customised for you, will also become very trendy across the world.
